

Control and security **MANAGEMENT POLICY**

Upala Agrícola S.A. is a producer and exporter of fresh pineapple and a member of the international supply chain.

We are committed to establishing operational controls to reduce risks related to illicit activities, corruption, and bribery in our processes.

We are also committed to promoting security in the use of information technology, thereby contributing to secure trade. Furthermore, we are committed to fostering continuous improvement of our management system for control and security within the current legal framework and in compliance with the BASC international standards.

In this regard, we have developed a set of strategic objectives to guide us in achieving our goals.
