

Safe MOBILITY POLICY

This policy aims to foster a commitment among all employees of Upala Agrícola S.A. to reduce traffic accidents and incidents both within and outside the company, promoting safe and responsible behavior on the road, and striving to create a workplace where occupational safety, property security, and people's health are not compromised.

Upala Agrícola S.A. starting with senior management, is committed to building a culture of safe mobility throughout its operations.

This includes ensuring the use of safety equipment when employees are commuting or on business trips using various modes of transportation, promoting activities to prevent traffic accidents and incidents, raising awareness about defensive driving, an training all employees so they acquire the necessary knowledge to use roadways responsibly, as well as forming strategic partnerships with various government and private entities to promote road safety education, complying with legal requirements, and striving for continuous improvement in processes.

Likewise, this policy applies to the company's vehicle fleet and employees.
